

CONTRACT TITLE

Princes Risborough Sewage Treatment Works

SECTOR

Civil, Mechanical & Electrical Engineering

CLIENT

Thames Water

VALUE

£159,000.00

REFERENCE

DG 8002

DESCRIPTION

The construction of a new concrete pump chamber around an existing 600mm diameter live sewer.

This involved a sewer diversion via overpumping and the installation of 3 new submersible pumps to handle flows of 80 litres / sec.

Rewiring, programming of the MCC and commissioning
